

STAGING

Figure of Eight can provide a whole host of staging services. Whether you know exactly what you need or require a little help in design, specification and execution, we can support you in anyway. Amongst other services, we can provide:

- Steeldeck, LiteDeck and Metro deck standard sections
- Outdoor roofs, front of house towers and backstage structures
- Layher systems including staircases and ramps
- Scaffolding structures for uneven sites
- Camera platforms and VIP decks
- Intergrated staging and trussing systems utilising Prolyte technology
- Custom made set flats and screens
- Ground support systems, gantries and rolling risers
- Large format print, scrims and banners on to roofs, structures or gantrys

We also offer full site surveys, detailed CAD plans and supporting documentation such as risk assessments and method statements to support our structures.

Whatever your staging enquiry, next time you need a reliable event partner, let us show you what we can do.
